INTERNSHIP

Grass Solution (P) Ltd.

- Internship - Python Programming

May 24 - Jun 24

PROJECTS

Music Player using Python

- GUI-based Application: The player provides a graphical interface, making it easy for users to interact without command-line inputs.
- Supports Multiple Formats: Can handle common audio file types like MP3, WAV, and OGG.
- State Handling: Manages the playback state for pausing, unpausing, and stopping music, ensuring smooth user experience.

Digital Clock using Python

- Real-Time Digital Clock: Displays the current time and date with continuous updates every 80 milliseconds for accurate timekeeping.
- Minimalistic and Customizable GUI: Simple design with customizable background, font, and text color, built using Tkinter for a visually appealing clock interface.
- Compact and Lightweight: Small fixed-size window with efficient resource usage, perfect for personal desktop utilities or as a learning project for beginners in Python GUI programming.
- Easy to Extend: The code is flexible, making it simple to add new features like alarms, time zones, or different time formats.

SKILLS

Languages : Python

Databases : MySQL

CERTIFICATION

NPTEL, India

- Internet Of Things
- The Science and Happiness of Well Being

Jan 24 - Apr 24

Aug 23 - Oct 23

EDUCATION

B.Tech Artificial Intelligence and Data Science

Poornima University

2022 - Pursuing

Board of Secondary Education, Rajasthan

High School

Apr 21 - Mar 22
